Adam & Eve & Evolution
Class 2 Discussion Group
March 3, 2023

1. On the final section of history that began class 2…

a. Was there anything that stood out or surprised you?

b. Were you left with any questions or things about the history you'd still like answers to?

c. Now that the history portion is completed, did it impact your perspective on the broader subject of Adam & Eve & Evolution or science & faith? If so, how?

2. On the 6 perspectives presented in part 2…

a. What clarifying questions do you have about the six perspectives, if any?

b. Which of the six perspectives is closest to what you were taught in your upbringing or your community of faith?

3. How does the scientific definition of a theory differ from how you might've thought about the term before? And what difference does it make, if any?

4. On the section about the Scientific Findings on the Origin of the Universe (Cosmology)…

a. Did you find the scientific findings that were summarized to be compelling, confusing, convincing, to raise more questions for you, or something else? And why?

b. At this point, do you think the Big Bang Theory could be compatible with the Christian faith? Why or why not?

.

Class 3 will cover…

- **Scientific Findings on the Origin of Life** [30 mins]
- **4 perspectives on Interpreting Genesis 1** [60 mins]
